# ACKNOWLEDGMENTS

This report was prepared in the Economic Surveys Division under the direction of **Faran Stoetzel**, Chief, County Business Patterns Branch, assisted by **Gerald Feuer** and **Andrew Pekala**. **Nancy Bean, Vestah Blye, Pierina Filice, Mary Frauenfelder, Joseph Tintera, Candie Vaughn, Noel Villaneva, Hung Wong**, and **Jon Youngman** contributed in resolving establishment processing problems and in the analysis of the data in this report. **Charles Venters**, Chief, Economic Programming Branch, directed the computer programming for the report. **Chuck Fee Lee** was assigned primary programming responsibility. **Paul Poissant**, Chief, Directory and Census Programming Branch, directed the computer preparation of the basic data files with assistance from **Mark Kronisch, John McCormick, Robert Penrod**, and **Susan Trefry**. **Mitchell L. Trager**, Assistant Division Chief for Research and Methodology provided general direction of the quality control operations for the data collection. As Acting Assistant Division Chief for Data Processing, **Mitchell L. Trager** also provided the general direction for the computer processing of the data. General Staff guidance was provided by **Alan I. Blum**, Assistant Division Chief for Data Programs.

Within the Publications Services Division, many individuals made significant contributions in the areas of publication planning and design, editorial review, composition, and planning procurement.

# General Explanation

## INTRODUCTION

The County Business Patterns (CBP) is an annual series of State and national publications presenting data on number of establishments, total employment, and payroll on an establishment basis, with economic activity classification reflecting the principal activity at each individual location. This series of reports was revised in 1974 and represents an extension of the program which has been published annually since 1964 and at irregular intervals dating back to 1946. A description of previous publications is provided on the inside back cover.

Data are tabulated by detailed kinds of business based on the 1972 edition of the *Standard Industrial Classification Manual*, including the 1977 supplement. The coverage includes most of the economic divisions of the economy, i.e., agricultural services, mining, construction, manufacturing, transportation, public utilities, wholesale trade, retail trade, finance, insurance, real estate, and services.

Tabulated data are available for the United States, the 50 States, the District of Columbia and Puerto Rico. As a result of processing the State data on a flow basis, the U.S. Summary publication reflects post-publication data corrections made, as required, to any of the 50 States and the District of Columbia. By incorporating these corrections in the U.S. Summary, individual State data totals may not match the data that appear in the U.S. Summary. This procedure will provide the data user with the most accurate State data available at the time the U.S. Summary is released.

In years other than Economic Census years (years ending in 2 and 7), the Annual Company Organization Survey provides the individual establishment data for large multilocation firms and a selected sample of smaller multilocation firms. Data for single-location firms are obtained from administrative records of the Internal Revenue Service and from other annual programs such as the Annual Survey of Manufactures, the Annual Retail Trade Survey, and the Annual Wholesale Trade Survey. Final industry classification codes derived from the 1982 Economic Census processing have been incorporated into the 1983 and subsequent County Business Patterns publications.

Because County Business Patterns statistics provide information on establishments, payroll, and employment by industry classification and county location, they are useful for analyzing market potential, measuring the effectiveness of sales and advertising programs, setting sales quotas and budgets, analyzing the industrial structure of regions, making basic economic studies of small areas, and serving other business uses. They are also useful to government agencies for administration and planning. For information on small business data, refer to the section titled County Business Patterns Data Available on Computer Tapes.

An appendix to this edition includes Federal civilian employment and payroll data by county for each State. These data, which are not part of the basic County Business Patterns tabulations, have been made available by the Regional Economics Division, Bureau of Economic Analysis, Department of Commerce, through the cooperation of the Bureau of Labor Statistics of the Department of Labor.

## TYPE OF EMPLOYMENT COVERED

Data in this publication represent the following types of employment covered by FICA (Federal Insurance Contributions Act);(1) all covered wage and salary employment of private nonfarm employers and of nonprofit organizations (starting January 1, 1984 FICA coverage became mandatory for employees of nonprofit organizations) and (2) all employment of religious organizations covered under the elective provisions of FICA. Data for employees of establishments totally exempt from FICA are excluded. These include the following types of employment: government, railroad employment jointly covered by Social Security and railroad retirement programs, self-employed persons, domestic service, agricultural production, foreign, and ships at sea.

## DEFINITIONS OF BASIC DATA ITEMS

### Establishments

Beginning with the 1974 publication, the statistics in County Business Patterns are tabulated on an establishments basis. An establishment is a single physical location where business is conducted or where services or industrial operations are performed. A central administrative office is an establishment primarily engaged in management and general administrative functions performed centrally for other establishments of the same company. An auxiliary establishment is one primarily engaged in performing supporting services for other establishments of the same company rather than for the general public or for other business firms. Activities of the type performed at separate administrative offices and auxiliary establishments are, in fact, normally carried on as an integral part of individual operating establishments. Hence, this type of activity is only partially measured by the statistics on separately reported central administrative offices and auxiliary establishments.

Establishment size designations are measured by paid employment in the mid-March pay period. The size group "1 to 4" includes establishments that did not have any paid employees in the mid-March pay period but paid wages to at least one employee at some time during the year.

Establishment counts are based on a determination of active status as of anytime during the year. Locations for both single and multilocation firms determined to be active anytime during the year (presence of payroll in any quarter) are counted as an establishment. In years prior to 1983, establishment counts were based on the determination of active status in the fourth quarter.

This change in definition was necessary to reduce differences in the published number of establishments between the County Business Patterns and the other economic data programs.

A comparison of the number of establishments in business at the end of the year (old definition) versus the number active anytime during the year for the United States as a whole was presented by major industry group in appendix D of the 1982 County Business Patterns U.S. Summary report.

### Payroll

Total annual payroll is the combined amount of wages paid, tips reported, and other compensation including salaries, vacation allowances, bonuses, commissions, sick leave pay, and the value of payments in kind (such as free meals and lodging) paid to employees before deductions for social security, income tax, insurance, union dues, etc. All forms of compensation are included, whether or not subjects to income tax or Federal Insurance Contributions Act tax, with the exception of annuities, third-party sick pay, and supplemental unemployment compensation benefits (even if income tax was withheld). For corporations, total annual payroll includes compensation paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. This definition of payroll is the same as that used by the Internal Revenue Service on Treasury Form 941. For single-establishment firms, annual payroll is the sum of the four quarters of total compensation. For multiestablishment firms, annual payroll data are reported on an establishment basis in the 1984 Annual Company Organization Survey. First-quarter total payroll consists of payroll, as defined above, paid to persons employed at any time during the January-to-March quarter.

Estimating techniques based on the reporting patterns of eight quarters of administrative payroll are used to derive payroll for those single-establishments firms' employers determined to be nonrespondents.

### Mid-March Employment

Mid-March pay period employment for single-establishment firms is the count of employees during the pay period that includes March 12, as reported on Treasury Form 941 or one of the Census Bureau current surveys, or as corrected by estimates in those cases where it was incompletely or improperly reported. Employment of establishments of multiestablishment employers is obtained from the Economic Censuses or from the Annual Company Organization Survey or is estimated for those establishments not reporting employment.

## INDUSTRY AND COUNTY CLASSIFICATIONS

### General

Initially, all employers are assigned industry classifications by the Social Security Administration on the basis of their nature of business and location information supplied on their applications for Employer Identification Numbers (Treasury Form SS-4). Where classification information is not satisfactorily reported on Form SS-4, the Social Security Administration obtains this information for larger cases through direct contact with the new business.

County classification codes are assigned by the Geography Division of the Bureau of the Census based on address information from the Business Master Files and the Internal Revenue Service.

The Bureau of the Census also assigns or updates industry and county classifications for a substantial number of establishments canvassed in the Economic Censuses, Annual Surveys of Manufactures, Annual Company Organization Surveys, and Annual Business Surveys. These changes are based on current information on actual physical location and major activity, as determined by nature of business, type of operation (importer, manufacturers' agent, etc.), and commodities handled or services rendered. All currently available industry and county codes assigned to establishments in the 1982 Economic Census were used to update the industry classifications and county codes in the 1983 and 1984 County Business Patterns.

### Industry Classification

Industry classifications are based on the 1972 edition of the SIC Manual, including the 1977 supplement. Additional information on industry classification is furnished in various appendixes that appear in the U.S. Summary report. In a few instances, the most detailed industrial classifications for which data are presented represent combinations of more detailed SIC industries. These classifications are explained in an appendix of the U.S. Summary.

The industry titles shown in County Business Patterns are the short SIC titles. Complete descriptions are contained in the *1972 SIC Manual.*

"Unclassified establishments" include establishments, typically new businesses, that can not be classified in any major industry group because of insufficient information.

The administrative and auxiliary establishment classification in this publication represents central administrative offices and auxiliary establishments, such as warehouses, research laboratories, and maintenance locations. Such data are shown separately by industry division for each county and by major industry group for each State and for the United States.

Industry classification of an establishment is based on its primary activity, which is determined by the principal product or group of products produced or distributed or by services rendered. For activities such as construction, transportation, communications, electric, gas, sanitary services, dispersed sales activities, and similar physically dispersed operations, establishments are represented by those relatively permanent main or branch offices, terminals, stations, etc., which are either (1) directly responsible for supervising such activities or (2) the base from which personnel operate to carry out these activities. Hence, the individual sites, projects, fields, networks, lines, or systems of such dispersed activities are not ordinarily considered to be establishments. As an example, a construction establishment is defined as a relatively permanent office, or other place of business, at which or from which the usual business activities related to construction are conducted.

Establishments engaged in force-account construction (construction work performed for its own account and used by an establishment primarily engaged in some business other than construction) are classified in the principal nonconstruction activity that is being performed or will be performed at the site.

Establishments that are selling and installing or erecting such products as structural steel buildings and bridges, elevators and escalators, sprinkler systems, central air-conditioning systems, automatic temperature controls, prefabricated metal room dividers, and others where the installation or erection costs are a major part of the total costs are classified as contract construction.

### County Classification

Establishments are assigned county classifications on the basis of their physical location. Independent cities, such as the cities in Virginia and the cities of Baltimore, Md., Carson City, Nev., St. Louis, Mo. and others are treated as separate counties.

Employers without a fixed location within a State or of unknown county locations are included in County Business Patterns under a "Statewide" classification at the end of the county tables for each State. This incomplete county detail causes only slight understatement of county employment in most major industry groups.

## SOURCES OF DATA

### Basic Items

The data for the 1984 County Business Patterns are extracted from the Bureau of the Census Standard Statistical Establishment List (SSEL).

### Federal Employment and Payroll Data

Data on Federal employment and payrolls include Federal civilian employment and payroll data covered under U.S. Code 8501-8508 (formerly 42 U.S.C. 1361-1369) of the Social Security Act. These data are not included in the regular County Business Patterns tables.

The data include all installations of Federal agencies having employees covered by the Social Security Act except the Central Intelligence Agency, the National Security Agency, and the Federal Bureau of Investigation, which are omitted for security reasons.

The Department of Defense (except units paid from nonappropriated funds) reports separately for each installation with 101 or more employees. Installations with less than 101 employees are included in a Statewide category.

Other Federal agencies and units paid from nonappropriated funds report data separately by installation, except where the option is exercised to combine small installations in a single Statewide report.

Mid-March pay period employment (except for Department of Defense) is the count of employees or intermittent workers employed during the pay period. Intermittent workers are defined as occasional workers who are employed at any time during the pay period.

Total wages for the first quarter are shown for Federal civilian employees. They include cash allowances and the cash equivalent of any type of remuneration. They also include all payments for sick leave, lump sum payments for terminal leave, withholding taxes, and civil service retirement deductions.

## DATA WITHHELD FROM PUBLICATION

In accordance with title 13, section 9, U.S. Code, data that may disclose the operations of an individual employer are not published. However, the number of establishments in a kind of business and their distribution by employment-size class are not considered disclosures, and these items may appear in instances where other items of information, such as employment and payrolls, are withheld from publication.

Data are not shown separately for any industry that does not have at least 50 employees in the area (county, State, or United States) covered by the tabulations. The nonpublication of small data cells is primarily a printing limitation. The unpublished small data cell information is contained on computer tapes. (See County Business Patterns Data Available on Computer Tapes section for details.) However, data for an unpublished industry are included in the total shown for the broader industry group of which it is a part. Also, data for some establishments that could not be classified by detailed kind of business are included in the tabulations in a broader kind-of-business group. For these reasons, the details shown in this report may differ from the sum of the published components.

## COMPARABILITY WITH OTHER DATA

### Employment and Payroll Data in 1982 Economic Censuses

In comparing County Business Patterns data with data from the Economic Censuses, the data user should bear in mind that differences in establishment, employment, and payroll data may be due to definitional and coverage differences that would affect the direct comparison of such data items. Definitional differences of data items between data sources may be discerned through review of the introductory text of the appropriate Economic Census volume being compared.

Comparability of employment and payroll data shown in this report and the reports of the Economic Censuses is affected by the following:

1. In general, the 1982 Economic Censuses represent reported data for individual establishments, whereas the County Business Patterns publications are based primarily on administrative records and current survey data. While every effort is made to resolve significant data differences for the same firm, differences are known to exist. In addition, the 1982 Economic Censuses include small firms with no paid employees (i.e., the owners are the employees). These firms are excluded from the County Business Patterns program.

2. Liquor stores operated by State and local governments are included in the Census of Business, Retail Trade. Liquor

warehouses operated by State and local governments are included in the Census of Business, Wholesale Trade. Both are now excluded from County Business Patterns as employing government workers. Beginning in 1985, government owned and operated liquor stores and liquor warehouses will be included in County Business Patterns.

### Employment and Payroll Data Under State Unemployment Insurance Program

Employment and payroll data, similar in a number of respects to the statistics in County Business Patterns reports, are compiled for each of the unemployment insurance agencies of the 50 States, the District of Columbia, and Puerto Rico and are published each quarter by the Bureau of Labor Statistics. These State data and related county or other local area data are derived from the quarterly reports submitted to the State employment security agencies by employers subject to the State unemployment insurance laws, and are compiled by each State under uniform definitions and minimum standards maintained by the Bureau of Labor Statistics. The SIC system is employed for industry classification purposes.

Major differences between the data in this publication and those in the unemployment insurance series are attributable to the following factors:

1. Differences in industrial classifications that arise because of differences between the concept of an establishment (one location) and of the reporting unit (one or more locations) that is to be classified.

2. Differences in coverage of small nonprofit organizations, churches, religious organizations, and private schools—both elementary and secondary.

3. Differences in reports submitted by employers to Federal and State agencies and differences in methods of processing and adjusting data.

### Bureau of Labor Statistics Employment and Labor Force Estimates

**Employment Estimates.** In cooperation with the Bureau of Labor Statistics, agencies in each State and the District of Columbia, including 47 employment security agencies affiliated with the Employment and Training Administration, prepare current monthly employment estimates by industry, both Statewide and for 230 selected areas. These estimates are based on employment data reported each month by a sample of employers in each industry and are periodically adjusted to levels indicated by social insurance statistics, primarily State unemployment insurance data.

The March 1984 estimates of these series for comparable industry groups, which are published both by the Bureau of Labor Statistics in *Employment and Earnings* and by the state agencies in their monthly news releases, may differ from the corresponding County Business Patterns figures for a number of reasons. There may be differences in level within national and State figures because the Bureau of Labor Statistics estimates are adjusted to levels described above, which may differ from those shown by data in this publication. There are also other differences, such as (1) the two sets of data differ in overall scope (e.g., County Business Patterns data exclude interstate railroads and government), (2) the County Business Patterns establishment may differ from the Bureau of Labor Statistics reporting unit, and (3) the industry classifications assigned to the same entity may also differ.

**Labor Force Estimates.** National estimates of the number of employed and unemployed persons in the labor force and data on their characteristics are currently published in the Bureau of Labor Statistics monthly report *Employment and Earnings*. This information is obtained for one calendar week each month from a sample of households throughout the country. Subnational data from the same survey are published only on an annual average basis. For 1984, separate estimates of civilian labor force employment and unemployment for all 50 States; the District of Columbia, 30 large standard metropolitan statistical areas and 10 central cities, were published in a Bureau of Labor Statistics report entitled *Geographic Profile of Employment and Unemployment, 1984*.

These labor force statistics, compiled from household interviews, differ in definition, concepts, and methods of measurement from data based on business payroll records. They serve different purposes and differ from the County Business Patterns data for a number of reasons. For the Household survey, workers are counted according to their place of residence, whereas for County Business Patterns, they are counted according to their place of work. The statistics from the household survey count each employed person only once according to major activity during the survey period; persons "with a job but not at work" and in a nonpay status are classified as employed. In the County Business Patterns data, an employee who worked for more than one employer during the mid-March pay period may be counted more than once. In addition, there are various reasons for differences in the two series of data: differences in the reporting systems they use; differences in the time period to which the reports refer; sampling variations in the figures based on the sample survey; and differences in industrial classification resulting from the fact that the survey information is obtained from respondents in workers' households, whereas the County Business Patterns industrial classification is based upon information either from the employer or administrative sources.

## RELIABILITY OF DATA

County Business Patterns data are tabulated from universe files and are not subject to sampling errors. However, the data are subject to nonsampling errors. Nonsampling errors can be attributed to many sources: inability to obtain information about all cases in the universe, definitional and classification difficulties, differences in the interpretation of questions, errors in recording or coding the data obtained, and other errors of collection, response, coverage, and estimation for missing data.

The accuracy of these tabulated data is determined by the joint effects of the various nonsampling errors. No direct measurement of these effects has been obtained; however, precautionary steps were taken in all phases of the collection, processing, and

tabulation of the data to minimize the effects of nonsampling errors.

Estimating techniques are used for data records which failed computer edits or had incomplete reporting of data items and for employers who reported too late to be included in the tabulations. (See "Definitions of Basic Data Items" for a general explanation of the imputation methodologies.)

Details in the tables may not add to totals because (1) some establishment records are not classified to the most detailed SIC level and (2) summary records with less than 50 employees are not shown separately but are shown at the next broader SIC group. Detailed payroll figures may not add to totals because of independent rounding.

## IMPUTATION METHODOLOGY

The data user should keep in mind that the imputation methodology was identical to the methodology used in 1978. Please refer to the 1978 U.S. Summary publication for a description of the methodologies used as well as estimates of the levels of imputation for the various data items, which are approximately the same as published in 1978.

Inquiries on the effect of imputed data on published data totals of the U.S. level should be directed to:

Chief, Economic Surveys Division
Bureau of the Census
Washington, D.C. 20233

## ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used in this publication:

| | |
|---|---|
| — | Zero |
| n.e.c. | Not elsewhere classified |
| SIC | Standard Industrial Classification |
| D | Withheld to avoid disclosing figures for individual companies |
| A-C, E-M | Entered in place of employment data, represents an employment-size class as shown at the bottom of the page |

## COUNTY BUSINESS PATTERNS DATA AVAILABLE ON COMPUTER TAPES

The published and unpublished County Business Patterns data are available on computer tapes. The tapes provide data on mid-March employment, first-quarter payroll, annual payroll, total number of establishments, and number of establishments by employment-size class by State and by county to the four-digit SIC level. Data for SIC's with fewer than 50 employees in a given county do not appear in the State and national County Business Patterns publications, but there is no such restriction on the tapes that include unpublished data. Of course, specific employment and payroll figures are withheld if the data might disclose information about individual employers. Nonetheless, the number of establishments by employment-size class by four-digit SIC by county is available without exception. Tables providing data other than the basic county and state SIC summary data are not available on tape. Two types of files will be available: one containing all of the data, both published and unpublished, for all States and counties, and another limited to the data in print for all States and counties. The U.S. Summary data tapes containing either published or unpublished data reflect the latest data corrections available at the time of their release, which may not match the previously released State totals. The price per tape is currently $140, documentation included. Prepayment is required.

**Published and Unpublished Data.**

| Number of reels | File number | Description |
|---|---|---|
| 4 | 2 | County data by census geographic State code and FIPS county code, by SIC code. |
| 1 | 1B | State data by census geographic State code, by SIC code. |
| 1 | US | U.S. Summary and data by census geographic State code, by SIC Code |

Inquiries for data years 1974 through 1983 should be addressed to:

Customer Services Branch
Data User Services Division
Bureau of the Census
Washington, D.C. 20233

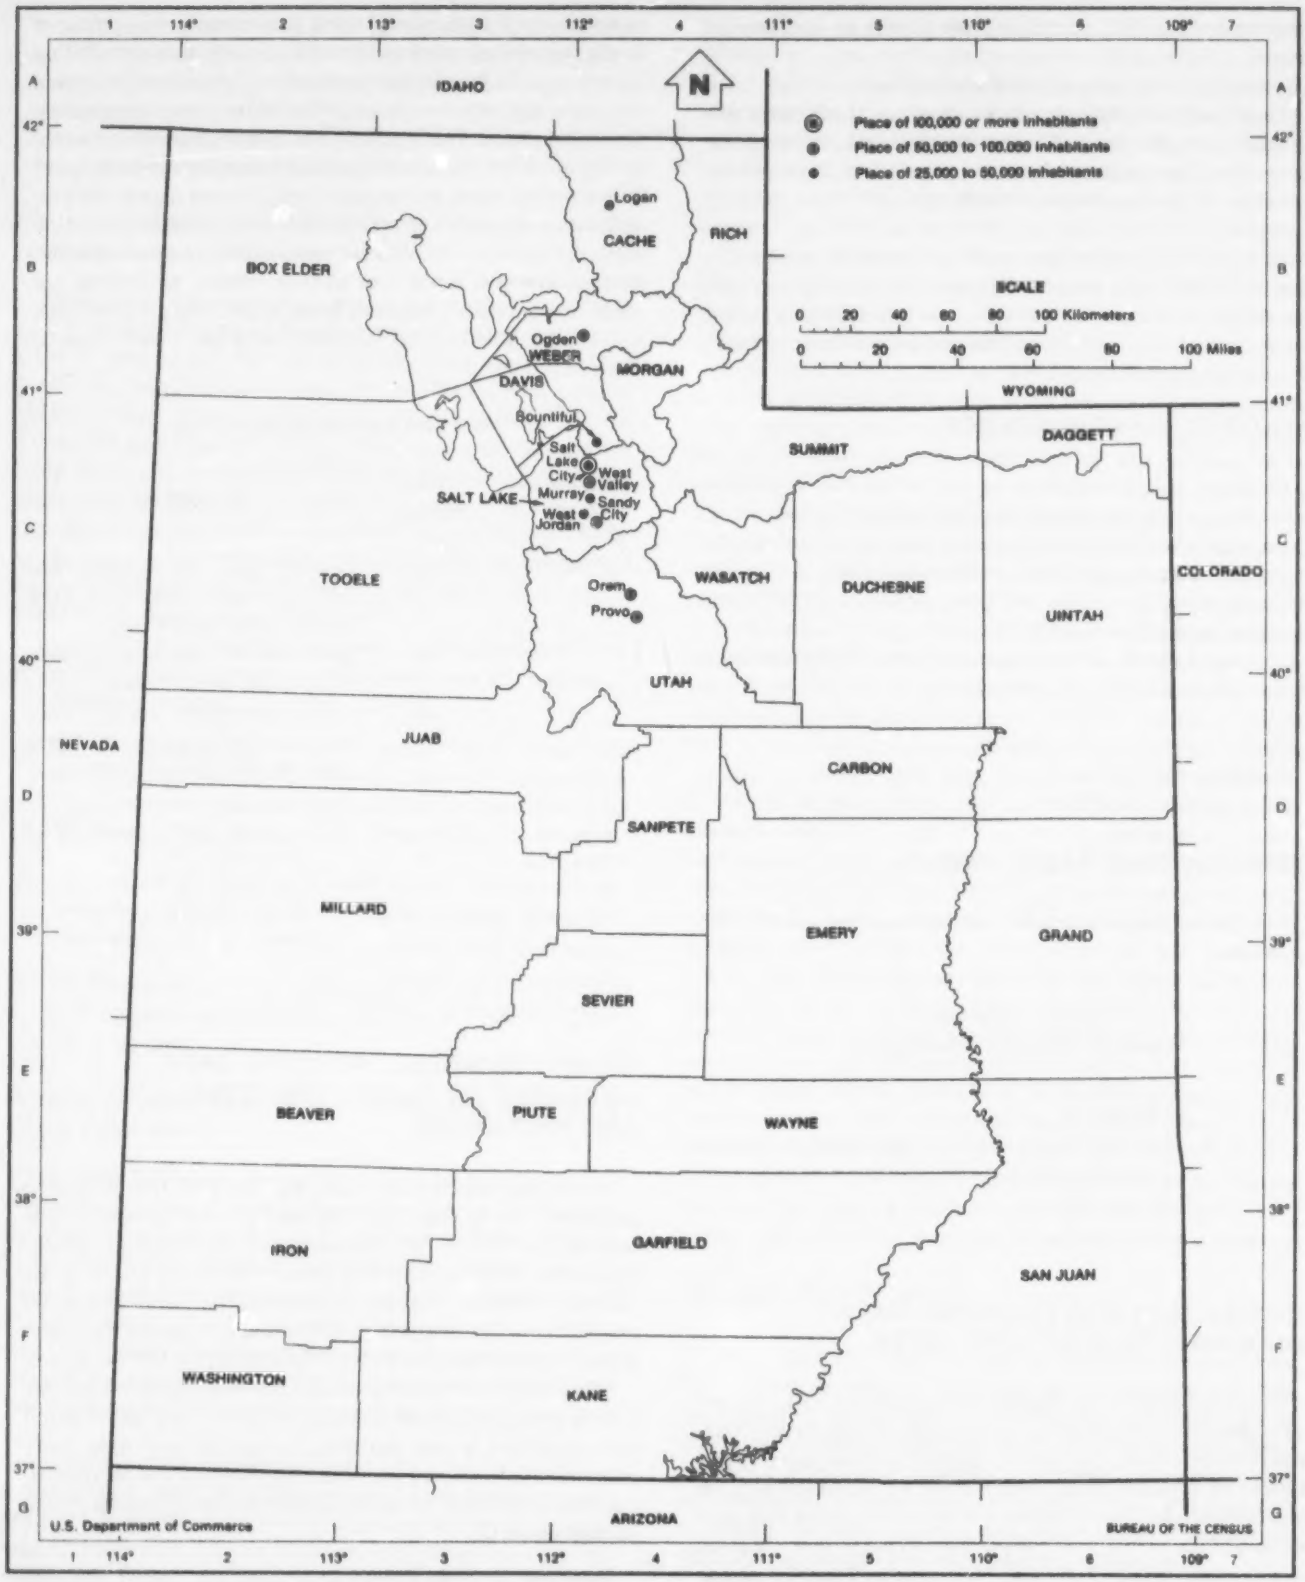
## COUNTY BUSINESS PATTERNS DATA AVAILABLE ON FLOPPY DISKETTES AND MICROFICHE

County Business patterns data are now available on flexible diskettes. The diskettes provide data on employment, annual payroll, total number of establishments and number of establishments by employment-size class by State and county to the two-digit SIC level. Data are available for the United States, 50 States, District of Columbia, and counties throughout the United States. Files are available on 5¼" flexible disks in IBM PC format.

County Business Patterns data are also available on microfiche. This is primarily for past publications (which are out of print), but microfiche is also available for current year data. Each microfiche is estimated to contain 98 pages on one microfiche. Inquiries on the fees for flexible diskettes and microfiche should be addressed to:

Customer Services Branch
Data User Services Division
Bureau of the Census
Washington, D.C. 20233

# COUNTY BUSINESS PATTERNS—UTAH



# Table 1A. The State—Establishments, Employees, and Payroll by Major Industry Group: 1984 and 1983

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 indicates establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Major industry group | 1984 | | | | 1983 | | | |
|---|---|---|---|---|---|---|---|---|---|

## Table 1A. The State—Establishments, Employees, and Payroll by Major Industry Group: 1984 and 1983—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

## Table 1B. The State—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments | Number of establishments, by employment-size class | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

# Table 1B. The State—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments | Number of establishments, by employment-size class | | | | | | | | |

# Table 1B. The State—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

# Table 1B. The State—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments | Number of establishments, by employment-size class | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

# Table 2. Counties—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments, by employment-size class | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | Total | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

## Table 2. Counties—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments, by employment-size class | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | Total | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

# Table 2. Counties—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments, by employment-size class | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | Total | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

# Table 2. Counties—Employees, Payroll, and Establishments, by Industry: 1984—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments, by employment-size class | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | Total | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

## Table 2. **Counties—Employees, Payroll, and Establishments, by Industry: 1984**—Continued

(Excludes government employees, railroad employees, self-employed persons, etc.—see "General Explanation" for definitions and statement on reliability of data. Size class 1 to 4 includes establishments having payroll but no employees during mid-March pay period. "D" denotes figures withheld to avoid disclosure of operations of individual establishments, the other alphabetics indicate employment-size class—see footnote.)

| SIC code | Industry | Number of employees for week including March 12 | Payroll ($1,000) | | Number of establishments, by employment-size class | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | First Quarter | Annual | Total | 1 to 4 | 5 to 9 | 10 to 19 | 20 to 49 | 50 to 99 | 100 to 249 | 250 to 499 | 500 to 999 | 1000 or more |

# Description of Publications Issued in Previous Years

### 1974 through 1983

Data are provided for mid-March employment, first-quarter and annual payrolls, and establishments, by industry, for each county in the State and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or establishments. Refer to page V of General Explanation for a description of the types of employment covered.

### 1964 through 1973

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county and standard metropolitan area in the State and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or reporting units.

### 1959 and 1962

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county in the State and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or reporting units. Data are combined for some counties in eight States.

### 1956

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county in the State and, in a separate report, for the United States. Data are included for SIC economic divisions, major groups, and selected three-digit SIC's. Data are combined for some counties in eight States.

### 1949 and 1950

Data are provided for first-quarter manufacturing establishments, employment, and taxable payrolls for each large county in the State and, in a separate report, for the United States. Data are included for manufacturing major industry groups and selected three-digit SIC's. Manufacturing totals are included for small counties. Data are combined for some counties in eight States.

### 1947, 1948, 1951, and 1953

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each large county in the State and, in a separate report, for the United States. Data are included for SIC economic divisions, major groups, and selected three-digit SIC's. Economic division totals are included for small counties. Data are combined for some counties in eight States.

### 1946

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each large county in the State and, in a separate report, for the United States. Data are included for SIC economic divisions and major groups. Economic division totals are included for small counties. Data are combined for some counties in eight States.

### Availability

The most recent edition of County Business Patterns can be examined in field offices of the Department of Commerce, located in principal cities across the country. Earlier editions are available in depository libraries for Federal publications, which are also conveniently located in all areas of the country.

For information on the coverage of individual series, write to Chief, Economic Surveys Division, Bureau of the Census, Washington, D.C. 20233.
